

« A Job With Perspective »

The Swiss Telsonic Group has been offering its industrial ultrasonic solutions through representation in Europe, America and Asia since 1966. Constant innovations help to ensure that, in many applications, Telsonic has established a lead over competitors that offers added value to customers. With over 250 highly qualified staff, the owner-managed company specialises in plastic and metal welding as well as ultrasonic cleaning and screening. All over the world, customers in fields such as automotive, packaging and medical technology value the company's comprehensive services and broad range of ultrasonic components for system construction as well as its complete welding systems.

We are looking for the following talent to join us

CNC Programmer/Operator

Shelby Township, MI

JOB DUTIES

- Program, set up, and operate CNC machines, including CNC Vertical Machining Centers and CNC Lathes, to produce high-quality parts. Includes loading raw materials and removing finished parts
- Utilize MasterCAM and PowerMill software for programming complex parts
- Work with a variety of materials, including Aluminum Alloys, Tool Steel, and Titanium
- Read and interpret blueprints, technical drawings, and CAD models
- Perform routine maintenance and troubleshooting on CNC equipment
- Maintain inventory of materials and tooling pertaining to the CNC machining centers
- Ensure that all machined parts meet strict quality standards and specifications
- Collaborate with engineering and production teams to optimize processes and improve efficiency

WE OFFER

- Competitive IRA and Health Benefits
- An independent and interesting activity in a dynamic, international environment
- An attractive workplace with flat hierarchies and an open corporate culture
- A goal-oriented work environment with a motivated team

JOB REQUIREMENTS

- Proven experience as a CNC Programmer/Operator
- Proficiency in using MasterCAM and PowerMill software
- Strong understanding of G-code programming
- Experience with CNC Vertical Machining Centers and CNC Lathes
- Ability to read and interpret technical drawings and CAD models
- Attention to detail and commitment to producing high-quality work
- Excellent problem-solving skills and ability to work independently
- Strong communication and teamwork skills
- Able to travel internationally as required
